Experiment With Four-Day Work Weeks For PTO Employees

An experiment is underway at the Patent and Trademark Office with "compressed work schedules." Under the experiment many PTO employees, including many patent and trademark examiners, are working their 40 hour average work weeks in fewer than five days a week. These employees work 9 or 10 hours a day instead of 8 hours. Under a "4–10" plan, employees work 10 hours a day and have off one day each week. Under a "5–4/9" plan, employees work 9 hours a day and have a day off every other week. All employees are on duty on "core days," which are Tuesdays and Thursdays.

The experiment is scheduled to run through March 1982. It complements the flexible working hours program announced in the OFFICIAL GAZETTE in January 1979 (978 O.G. 140) under which many employees have flexibility to begin their work days as early as 6:30 a.m. and end as late as 6:00 p.m., provided they are on duty during core hours, between 9:30 a.m. and 3:00 p.m.

The public hours of the Patent and Trademark Office continue to be 8:30 a.m. to 5:00 p.m. All units of the Office which deal directly with the public are staffed to answer telephone calls and receive visitors during those hours. The Patent Public Search Room continues to operate from 8:00 a.m. to 8:00 p.m. The Trademark Public Search Room operates from 8:00 a.m. to 5:30 p.m.

Members of the public are reminded they should make appointments in advance when they wish to interview examiners.

OFFICIAL GAZETTE NOTICE

Extension of Time for Filing Notices
of Opposition to Registration of Marks Published
in the Official Gazette Dated
January 6, 1981

By means of an Official Gazette announcement dated June 24, 1980, the Patent and Trademark Office granted an automatic 14-day extension of time for filing Notices of Opposition to marks published in the Official Gazettes dated May 20, 1980 through December 30, 1980. Additional extensions were subsequently granted with respect to several Official Gazette issues for which 14 days proved to be an insufficient extension. The automatic extension is no longer in effect; henceforth, extensions will be granted only on an issue-by-issue basis.

The Official Gazette dated January 6, 1981 was not issued until January 16, 1981. Therefore, for marks published in the Official Gazette dated January 6, 1981, Notices of Opposition filed by February 16, 1981 will be considered timely.

SECTION 1.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).
